Payroll & Reports

Tapvera Technologies Pvt. Ltd. · April 2026 · Confidential

One login. Your entire business.

Tapvera CRM replaces disconnected tools with a single, unified platform your whole team can use.

THE LOGIN EXPERIENCE

Every team member gets their own secure login. The system detects their role automatically and loads only the tools and data relevant to them — keeping it simple and focused.

WHAT TAPVERA REPLACES

**Attendance Registers**

Digital check-in replaces paper logs with real-time visibility.

**Excel Payroll Sheets**

Automated salary calculation and instant payslip generation.

**WhatsApp & Group Chats**

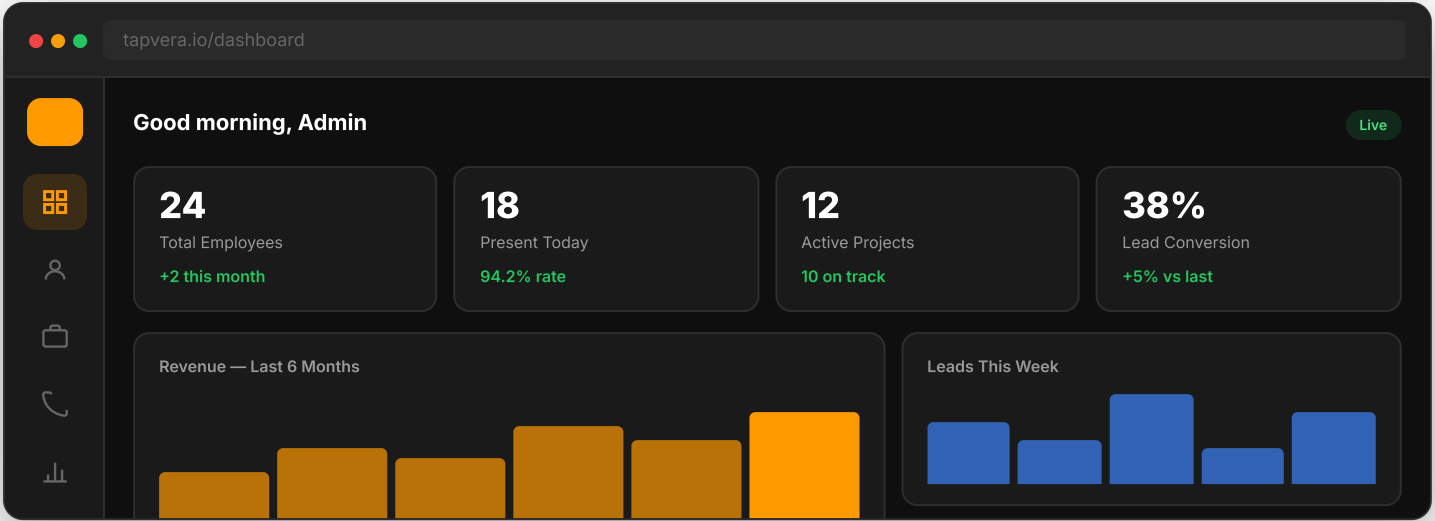

Structured project-specific communication inside the system.

**Paper Leave Forms**

Digital request, one-click approval, zero paperwork.

Your entire business, one screen.

Log in and instantly see the health of your business — attendance, revenue, projects, and leads — all in real time.

Everything at a glance

The main dashboard is your command center. Open it in the morning and you immediately know: who is present, which projects need attention, which leads are waiting, and whether payroll is on track.

- ✓ Live employee attendance counter — no need to call anyone
- ✓ Revenue trend chart updated in real time
- ✓ Pending approvals surfaced automatically on login
- ✓ Actionable alerts — overdue tasks, missed callbacks, pending leaves

What different users see:

Super Admin	Full business overview
Manager / Admin	Team & project summary
HR	Attendance & payroll status
Employee	My tasks & attendance

Employees & Attendance

Manage your entire team digitally — from onboarding to daily attendance — with zero paperwork.

EMPLOYEE MANAGEMENT

- Complete employee profiles — contact, role, department, documents
- Add or deactivate employees instantly as your team changes
- Full employee directory searchable by name, role, or department
- Work history and performance records stored per employee

ATTENDANCE & SHIFTS

- Digital check-in & check-out — no physical registers
- Supports morning, evening, night & flexible shift patterns
- Monthly attendance auto-feeds into payroll calculations
- Admins can correct attendance records manually when needed

Payroll that runs itself.

Salary calculations, payslips, and HR reports are fully automated. Your HR team focuses on people, not paperwork.

WHAT GETS AUTOMATED

- ✓ Monthly salary calculation based on attendance & shift data
- ✓ Payslip generation and email delivery in one click
- ✓ Leave request approval workflow — request, review, decide
- ✓ Company-wide holiday calendar updated once, visible to all

"What used to take the HR team two days every month now takes under an hour. Payslips are generated and sent automatically — employees receive them without anyone having to chase."

Projects & Clients — in one place.

Every project has its own space. Every client has their own portal. Everything is visible, tracked, and organized.

Checkout flow review sent for approval

Apr 8

Mobile version wireframes shared

Clients get their own secure login to view project progress — without seeing any internal team data, messages, or costs.

PROJECT FEATURES

- ✓ Project-specific chat & file sharing for each team
- ✓ SEO keyword tracking & backlink management per project
- ✓ Milestone tracking with deadline alerts
- ✓ One-click downloadable project report for clients

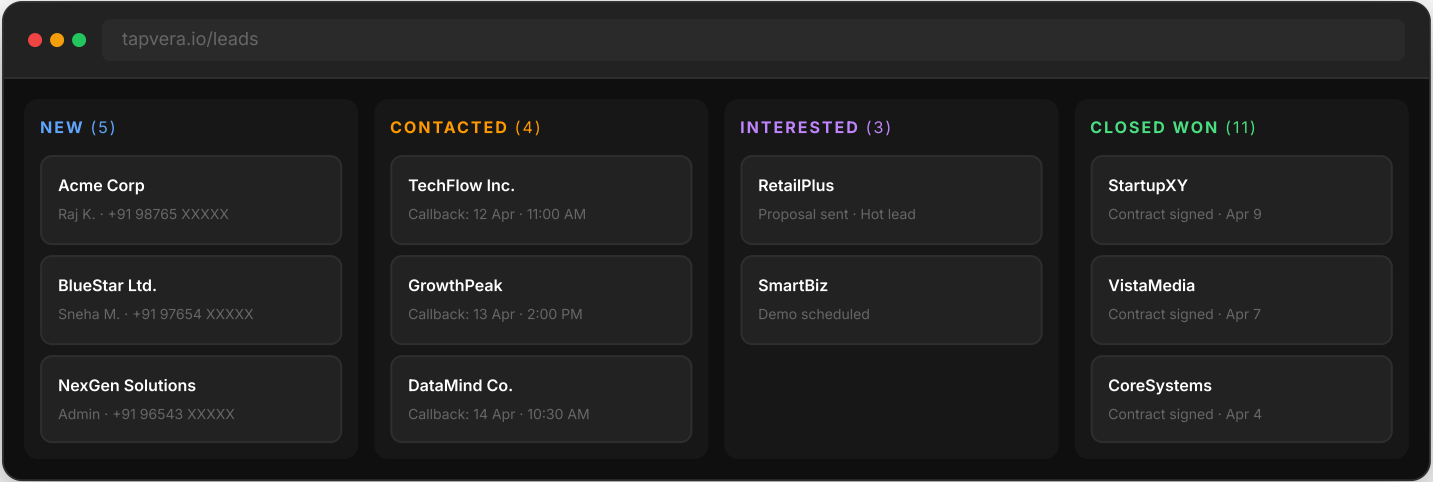

CLIENT MANAGEMENT

- ✓ Each client has a dedicated profile with full history
- ✓ Clients can log in to view their project — read-only access
- ✓ Invoices, remarks, and communications stored per client
- ✓ Bulk emails and automated client updates supported

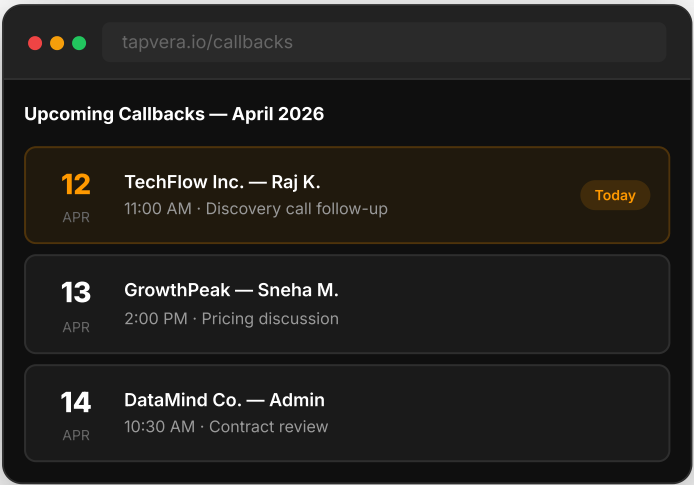

Leads & Callbacks — never miss a deal.

Your entire sales process — from the first call to closing the deal — tracked in one visual, organized system.

VISUAL LEAD BOARD (KANBAN)

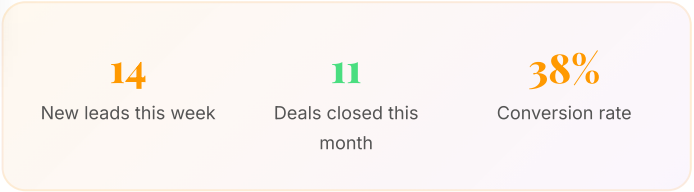

CALLBACK CALENDAR

HOW THE LEAD SYSTEM WORKS

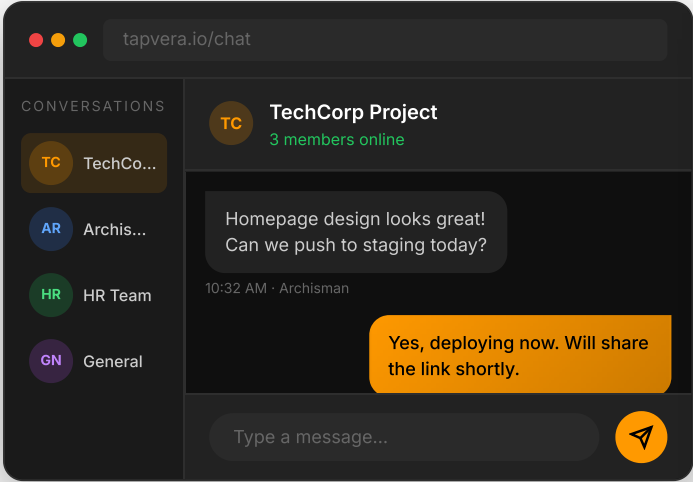

- ✓ Add leads in seconds — name, number, source, and notes
- ✓ Assign to a team member; they own the lead from that point
- ✓ Move leads through stages on the visual Kanban board
- ✓ Schedule a callback — it appears on the team calendar
- ✓ Every call note, update, and status change is logged automatically
- ✓ Transfer leads between team members with full history intact

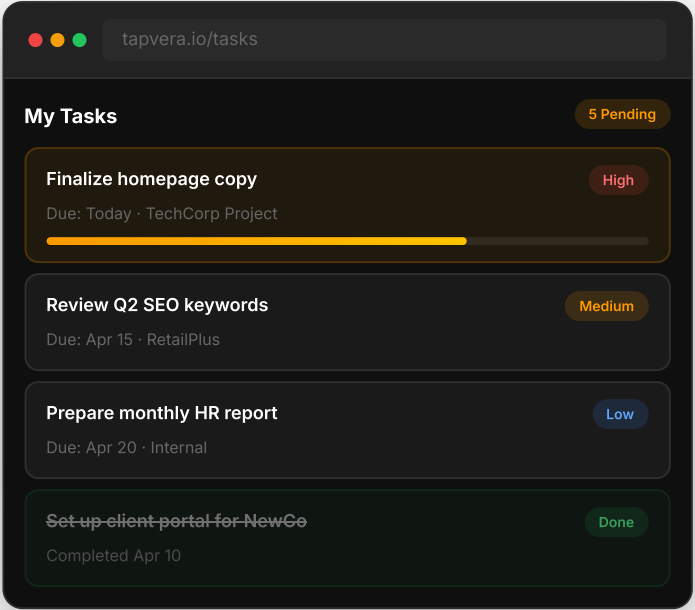

Chat, Tasks & Notifications.

Your team stays aligned and productive with structured communication, task management, and instant notifications — all inside the CRM.

IN-APP TEAM CHAT

TASK MANAGEMENT

COMMUNICATION TOOLS

- ✓ Team chat directly inside the CRM — no external apps
- ✓ Project-specific chat rooms for each client engagement
- ✓ Real-time notifications for approvals, tasks, and updates
- ✓ Company notice board visible to everyone on login

TASK & TODO FEATURES

- ✓ Assign tasks with priority levels, deadlines, and notes
- ✓ Admin task view shows all team tasks in one place
- ✓ Employees see only their own tasks — clean and focused
- ✓ Personal notepad with sharable notes for important info

The right access for the right people.

Four built-in user roles ensure every team member sees exactly what they need — and nothing more.

Super Admin

Complete control over all settings, employees, data, and financials. Typically the business owner.

Admin

Manages day-to-day operations — projects, payroll, attendance, and leads. Broad access within set limits.

HR

Focused on people management — attendance, leaves, payroll processing. No access to client or sales data.

Employee

Sees only their own data — payslips, attendance, tasks, and assigned projects. Clean, simple, distraction-free.

Tapvera CRM vs. Doing It Manually

TASK	WITHOUT TAPVERA	WITH TAPVERA CRM
Payslip generation	Hours of manual calculation in spreadsheets	One click — auto-generated & sent
Attendance tracking	Paper registers, prone to disputes & errors	Digital, real-time, tamper-proof records
Leave approvals	WhatsApp messages, easy to miss or forget	Formal digital workflow, one-click approval
Lead follow-ups	Mental notes, missed callbacks, lost business	Kanban board, scheduled reminders, tracked
Project status	Daily update calls & report emails	Live dashboard, no manual reporting needed
Client updates	Scattered emails, delayed, inconsistent	Client portal with real-time progress view

Everything included. Nothing missing.

Every module below is built-in — no separate subscriptions, no integrations required.

- Employee Management
- Attendance Tracking
- Payroll & Payslips
- Project Management
- Client Management
- Lead Management
- Callback Scheduling
- Task Management
- Leave Management
- Shift Management
- Team Chat
- Notice Board
- Analytics Dashboard
- SEO Keyword Tracking
- Backlink Tracking
- Invoice Management
- Payment Tracking
- Role-Based Access
- Real-Time Notifications
- AI Assistant
- Holiday Management
- Digital Notepad
- Automated Email Reports
- Client Portals
- Sheet Manager
- Call Intelligence
- HR Dashboard
- Blog Management

Why Tapvera CRM makes a real difference

Saves Time Every Day

Tasks that took hours — payslips, attendance reports, lead follow-ups — now take minutes or happen automatically. Your team does real work, not admin.

Full Visibility at All Times

See who is present, which projects are on track, which leads need attention, and how much revenue is coming in — from any device, anywhere.

Fewer Mistakes

Automated payroll, digital attendance, and structured workflows eliminate the human errors that come from manual processes and scattered tools.

More Revenue

Every lead is tracked. Every callback is scheduled. Things that used to fall through the cracks — costing you business — are now caught and managed.

Better Team Experience

Employees see their own payslips, apply for leave without chasing anyone, and get their tasks clearly. It builds trust and saves everyone time.

Scales With You

5 employees today or 500 tomorrow — Tapvera CRM handles it. No need to switch tools or re-import data as your business grows.

Tapvera CRM is your business, organized.

Running a business means managing people, projects, money, and relationships — all at the same time. Most companies do this across spreadsheets, messaging apps, paper, and memory.

Tapvera CRM brings it all into one place. It gives your team a clear system to work within, your managers real-time visibility, and you — as the business owner — the confidence that nothing is being missed.

It is not just software. It is the operating system for your company.

Tapvera Technologies Pvt. Ltd.

Your Business, Fully in Control.
