Real-Time

Everything your business needs.

Every module solves a real, everyday business problem — without unnecessary complexity.

Employee Management

Manage all employees in one place. Track roles, departments, and work history without digging through files.

Attendance Tracking

Digital check-ins. See who is present, absent, or late — in real time, without asking anyone.

Project Management

Create projects, assign teams, set deadlines, and track progress — all in one dedicated space.

Payroll & Payslips

Salary calculations happen automatically. Payslips generated and sent with one click.

Lead & Sales

Track every lead from first contact to close. Visual board so your team always knows what to do next.

Team Chat

Communicate directly inside the CRM. Project-specific chat keeps conversations organized and searchable.

Task Management

Assign tasks with due dates and priorities. Everyone knows their responsibilities at a glance.

Analytics & Reports

Clean dashboards showing sales, attendance, project health, and revenue — automated, no analyst needed.

Role-Based Access

Control exactly what each person sees and does. Employees see their data; admins see everything.

Client Management

All client info in one clean profile — contacts, projects, communications, and invoices.

Leave Management

Employees apply digitally. Managers approve or reject with one click. No paperwork, no chasing.

AI Assistant

Built-in AI helps your team get quick answers, draft messages, and surface information instantly.

Forget spreadsheets. Your HR runs itself.

HR is one of the most time-consuming parts of running a business. Tapvera automates the repetitive parts so your team can focus on people, not paperwork.

- ✓ Salaries calculated automatically from attendance and shift data
- ✓ Payslips generated and sent to employees without manual effort
- ✓ Leave requests received, reviewed, and approved entirely digitally
- ✓ Company-wide holiday calendar everyone sees the same
- ✓ Positions and designations managed from one central place
- ✓ HR dashboard: headcount, leaves, and payroll status at a glance

— ATTENDANCE & SHIFTS

Always know who is working and when.

- ✓ Employees mark attendance digitally — no physical register needed
- ✓ Morning, evening, night, and flexible shift types all supported
- ✓ Admins can manually correct records when needed
- ✓ Today's live attendance visible to managers in real time
- ✓ Monthly reports generated automatically, no manual compilation
- ✓ Data feeds directly into payroll calculations

The right people see the right things.

Four built-in user roles control exactly what each person can see and do — from business owner to individual employee.

Super Admin
Full access. Manages all settings, employees, data, and configurations. Typically the business owner.

Admin
Day-to-day operations — attendance, payroll, projects, and leads. Broad access within defined limits.

HR
Employee features — attendance, leaves, payroll. No access to sales, financials, or system settings.

Employee
Own data only — attendance, payslips, tasks, and assigned projects. Focused and distraction-free.

Tapvera vs. Doing It Manually

TASK	WITHOUT TAPVERA	WITH TAPVERA
Payslip generation	Hours of manual spreadsheet work	One click, auto-generated
Attendance tracking	Paper registers, errors and disputes	Digital, real-time, accurate
Leave approvals	Messages easy to overlook or forget	Formal request → Approve / Reject
Lead follow-ups	Mental notes, missed callbacks	Scheduled, reminded, tracked
Project updates	Daily calls and manual email reports	Live dashboard, instant visibility
Client communication	Scattered across email, messages, calls	Structured, searchable, in one place

What Tapvera does **for your business.**

Beyond features — the real-world impact of managing everything in one system.

Saves Time Every Day

Payslips, attendance, lead follow-ups — now automatic. Your team spends time on work that matters, not admin.

Full Visibility at All Times

Projects on track, attendance, leads to follow up, revenue in — from any device, anywhere, at any time.

Fewer Mistakes

When payroll calculates from real attendance data, human error is eliminated. Tracked leads don't get forgotten.

More Revenue, Less Leakage

Leads tracked. Callbacks scheduled. Projects have clear status. Things that cost you business are now caught.

Better Team Experience

Employees view payslips, apply for leave, and find information without sending a single message. Builds trust.

Scales With Your Business

Five employees today or five hundred next year — Tapvera grows with you, no switching tools or losing data.

— IN
SUMMARY

Tapvera CRM is your business, organized.

Running a business means managing people, projects, money, and relationships — all at once. Most companies do this with spreadsheets, messaging apps, paper records, and memory. It works, until it doesn't.

Tapvera CRM brings everything into one place. It gives your team a clear system to work within, gives your managers real-time visibility, and gives you the confidence that nothing is being missed.

**It is not just software.
It is the operating system for your company.**
